Australian Citizen and recent Bachelor of Computer Science graduate pursuing a Graduate Certificate in Data Science. Skilled in software engineering and computer science, with hands-on experience in full-stack development and problem solving. Adept at learning new technologies quickly and applying them to real-world projects. Seeking opportunities that leverage my computer science background, with flexibility to adjust my studies to part-time.

## EXPERIENCE

---

### Software Developer at Phillip Baxter (Volunteer) Jan 2023 - Aug 2023

- Implemented multi-intent handling and TTL caching on Python catering chatbot, resulting in reduction of required user-input and a significant increase in response accuracy.

### Support Engineer at FCCCI (Non-Profit) Jan 2020 - March 2022

- Diagnosed and resolved 150+ hardware and software issues for customers, ensuring seamless operations and minimizing downtime to maintain event efficiency.
- Troubleshooted WordPress CMS issues for company site, such as login problems, server errors, or broken links.

## PROJECTS

---

### JobEase Jan 2025

*TypeScript, Java, React Native, Spring Boot, PostgreSQL, Azure*

- Spearheaded beta version of industry specific platform aimed at revolutionizing job search processes, overseeing all aspects of product design, development, and iteration.
- Managed cross-functional efforts, including product strategy, technical architecture, and user acquisition, while navigating the challenges of a highly competitive market.

### AIInterview Oct 2024

*.NET, ASP.NET Core, C#, NextJS, TypeScript, TailwindCSS, MongoDB, OpenAI API*

- Successfully integrated OpenAI's .NET API and modern frameworks (NextJS, TailwindCSS) to build a mock interview platform, showcasing rapid mastery of cutting-edge technologies.
- Implemented Jest and Cypress for testing to ensure reliability and performance.

### Portfolio Dec 2024

*TypeScript, NextJS, Sass, Vercel, Spotify API*

- Designed and deployed a dynamic single-page application (SPA) to showcase my projects and skills.
- Hosted on Vercel for seamless deployment and continuous integration.
